Summary

I'm Muhannad, a dedicated Web developer driven by a profound passion for software craftsmanship. I've honed my skills with MERN stack, Laravel, and advanced database designs. I've also crafted APIs in C# and built different systems using ASP.net showcasing my adaptability and project management abilities.

Currently, immersed in MERN stack projects, leveraging NodeJS and MongoDB for backend and React with Tailwind CSS for frontend development.

I bring leadership experience from contributing to managing several clubs like Google Developer Student Clubs (GDSC) and a commitment to excellence.

Relevant Skills

Programming Languages and Frameworks:

- JavaScript Frameworks: Node.js, ReactJS (including experience with Express.js, typescript)
- PHP Frameworks: Laravel
- C# Frameworks: .NET

Web Development:

- REST API Development
- Backend Development: Typescript, JavaScript, PHP
- Frontend Development: HTML5, CSS (Tailwind)
- Database Management: MongoDB, MySQL, MS SQL, Oracle
- Version Control: Git/GitHub
- Operating Systems: Windows and Linux
